

**Role Profile: Junior Product Analyst – Products Department****Salary:** £25,000**Location:** Cheadle Hulme**Contract Type:** 6 Months fixed term, with the potential for a permanent role after completion.

Standard working hours are Monday to Friday 9AM – 5 PM.

This is a fully on-site role for the duration of the contract, requiring you to work from the Cheadle Hulme office. If you are offered a permanent position, there will be flexibility to work from home.

**Role overview:**

We're looking for a motivated Junior Product Analyst to join our Products Team on a 6-month fixed contract, with the potential for a permanent position for the right individual. This is a fantastic opportunity to play a key role in the development of insurance products that adapt to customer needs in an evolving market. Whether you have experience or are just starting out, we're open to applicants who are passionate, detail-oriented, and eager to learn.

**What You'll Do:**

- You'll oversee the product inbox, responding to internal queries and coordinating with different departments to keep things running smoothly.
- Conduct and peer-review fair value assessments, making sure our products deliver what they promise and meet regulatory requirements.
- Participate in product governance reviews, where your insights will help drive ongoing product improvements.
- Draft and update target market statements, ensuring our products align with customer needs based on your data analysis.
- Track how our intermediaries meet regulatory and contractual obligations, ensuring everything adheres to 2nd Line of Defence guidance.
- As the first point of contact for internal new business requests, you'll work closely with teams across Underwriting, Claims, Data, Marketing, and Compliance to ensure smooth handovers.
- You'll coordinate new business distribution to the underwriting team, keeping key stakeholders updated on progress and developments.

### About you:

We're looking for someone who is proactive, analytical, and able to thrive in a fast-paced environment. While experience is a plus, what's most important is your enthusiasm to learn and your commitment to making an impact.

- Strong communication skills and the ability to collaborate across departments.
- An analytical mindset, with the ability to turn data into actionable insights.
- Comfortable managing multiple tasks and prioritising work effectively.
- A basic understanding of insurance products and regulations is a bonus but not essential.
- Familiarity with MS Office and data analysis tools.

### Desired (but not required):

- Previous experience in the insurance or financial services industry.
- Knowledge of regulatory frameworks and compliance processes.
- Experience with data analytics tools to inform product decisions.
- Understanding of the customer journey and its impact on product outcomes.

### Why Join Us?

This is a unique opportunity to be at the forefront of product innovation. You'll work alongside a range of teams, gaining insights into product strategy, governance, and compliance, while contributing directly to the evolution of customer-centric insurance solutions.

### About Acasta Europe:

Acasta Europe is a trusted provider of bespoke insurance solutions across the UK and Europe. With a focus on innovation and customer satisfaction, we offer a wide range of products tailored to meet the unique needs of our clients.
